

Video Conferencing Systems

High Definition Video Communications LifeSize® provides the highest quality, advanced video communications solutions available on the market. Each system is designed to make video communication a highly productive, simple to use, reliable and stunning video and audio experience. LifeSize® Room™
Our most full-featured product, LifeSize Room supports dual monitors and dual camera inputs and features an embedded high definition multipoint bridge that allows up to 4 participants to connect in high definition video.

LifeSize® Team™

LifeSize Team features the same high definition video and audio found in LifeSize Room and supports a single camera, single monitor and point-to-point video conferencing.
